

RE: COVID-19 Response – Update #34 – January 27, 2021

The Corix Group of Companies (the Company) is providing this thirty-fourth update regarding actions taken by the Company to address the COVID-19 outbreak since our most recent correspondence to you, dated January 6, 2021. Below you will find several actions the Company has taken since our last update:

- ***Personal Protective Equipment (PPE) Inventory*** – As the number of COVID-19 cases remain at a high level, the Company continues to prioritize proper PPE procurement to ensure our employees have enough on hand to continue performing their essential duties. The Company’s approach includes both locally sourced and stored PPE and a centralized PPE inventory that can be shipped to jurisdictions as needed. The Company is also monitoring PPE guidance from public health organizations as the COVID-19 pandemic evolves to ensure we are providing our employees with the recommended PPE. As guidance is updated or changed, the Company will ensure we have an appropriate inventory to ensure the health and safety of our employees and the communities we serve.

- ***COVID-19 Vaccination Planning*** – As the COVID-19 vaccine deployment continues, the Company’s Incident Command Team’s Vaccination Subcommittee continues to work with local Vaccine Coordinators to provide assistance with the logistics associated with vaccination scheduling in each area. The Company continues to monitor state/provincial plans for vaccine distribution to ensure our essential utility workforce has the information needed to make sound decisions regarding vaccinations and the support needed to ensure timely vaccination scheduling that accounts for ongoing operational requirements.

- ***COVID-19 Safety Policy Adherence*** – As COVID-19 cases continue to rise and the pandemic persists, we are continuing with our remote working policies and our existing Physical Distancing schedules for operations staff required to work in the field. We continue to reinforce the importance of strict adherence to all COVID-19 policies instituted by the Company to ensure the health and safety of our employees and our communities.

We hope you find these continuing updates by the Company helpful, and we invite you to email us at communications@corix.com with any questions or concerns you may have.
