

RE: COVID-19 Response – Update #40 – June 10, 2021

Over the past year, the Corix Group of Companies, has prioritized proactive communication with all external stakeholders and customers regarding our response to the COVID-19 pandemic. Our response efforts have been, and continue to be, guided by public health recommendations and science-based decision making to ensure the health and safety of our employees and the communities we serve while continuing to provide safe and reliable service. We are proud of our employees and their flexibility and commitment in executing our response safely and effectively.

As we proceed through the next phase of the pandemic, local leadership will work with the Company's Incident Command Team to return to more normalized operations beginning this Summer. The Company will continue to prioritize the health and safety of our employees and our customers as these decisions are made.

The Company appreciates your collaboration and guidance in responding effectively to the COVID-19 pandemic. As we move forward, we look forward to maintaining clear and open communications with our external stakeholders and customers.

We hope you find these continuing updates by the Company helpful, and we invite you to email us at communications@corix.com with any questions or concerns you may have.
